

Puna CDP Action Committee Meeting

Agenda Item Request

August 13th, 2018

Mr. Chair, I would like to propose the following agenda item for our next action committee meeting.

In response to fellow committee member, Susan Osborne, commenting that the changing conditions afford the Action Committee and the recovery planning team the opportunity to really embrace and uplift technologies and innovative ideas that would uplift the Puna community.

Specifically, I'd like to request discussion related to increasing our reach into the community using innovative technologies, publishing tools and other forms of promotion available.

My humble request is for members of the committee to be prepared to share ideas for promoting the meetings, our efforts and specifically, Puna recovery efforts.

I would provide ideas and recommendations at the next meeting for community engagement. To help prepare for the topic discussion I would humbly request 5 minutes at the next meeting to share a short presentation followed by a 20 minute discussion on the topic as necessary to allow decision to be made to move forward with recommendations from the presentation and discussion.

With your approval Mr. Chair, I would like to make my presentation available to the committee at least two weeks prior to the meeting. I am available to answer any questions.

Sincerely,

-Brent Norris
